Databases / Backend
- Firebase
- MongoDB
- REST APIs
- Node Js

Tools & Platforms
- Git & GitHub
- VS Code
- Android Studio
- Chrome DevTools
- Docker
- Netlify
- Hostinger
- Postman

Methodologies
- Agile
- Scrum
- Planning Poker

Experience

Ikigai Technology: www.ikigai-technology.com — Tucumán, Argentina
Desing & Development — June 2025 - Present

- I developed a responsive web platform using React, Vite, and Tailwind CSS.
- I designed modern user interface components and implemented a clean design architecture.
- I applied responsive design principles for mobile and desktop devices.
- I deployed the project using Hostinger hosting.

Education

Rolling Code — Online
Full Stack — August 2024 - January 2025

- Intensive training in modern web application development.
- Built frontend applications using React, Vite, and Tailwind CSS.
- Developed backend fundamentals with Node.js and REST APIs.
- Integrated frontend and backend services in real-world projects.
- Applied clean code principles and responsive design best practices.

UTN TUC Tucumán, Argentina
Technical degree in programming January 2022- December 2024

- Built foundational knowledge in programming, algorithms, and software development principles
- Developed web-based applications using HTML, CSS, and JavaScript.
- Worked with Git for version control and collaborative development practices.
- Applied Agile methodologies (Scrum and Kanban) in team-based projects.
- Strengthened problem-solving and logical thinking skills through practical assignments.

Languaje

- Argentinian Spanish (native)
- English (level B2)
